

# Sure Aesthetics, specialists in laser & advanced skincare

We are a highly professional, independent clinic with over 20 years experience in the Aesthetic & Beauty industry.

At Sure Aesthetics we put our clients first to ensure the best and most suitable individual treatment is chosen to address concerns, so all our clients leave feeling fully satisfied. At Sure Aesthetics we believe that the Aesthetic and Beauty industry should provide exceptional client care within a professional, calm and inviting environment, and this is what we strive to achieve. We use only the highest quality and market-leading equipment and products such as Cynosure medical grade lasers and TheraClear acne removal. Investing in this proven clinical technology ensures that clients get the best results that can be achieved.

Our clinic owner, Sarah, is also a qualified trainer and is Cynosure's most highly experienced and qualified clinical specialist in the UK. Known for her high level of expertise using a varied selection of lasers, including everything from hair removal and tattoo removal to surgical lasers for cellulite and ablative procedures. She has trained a range of people from Plastic Surgeons to Beauty Therapists. This means that you can rest assured when receiving treatment at Sure Aesthetics, as all of our practitioners have been trained to the highest standard. Our unique setting and ethos means that clients can visit a modern and calm clinic in complete confidence. Professional, results orientated and welcoming, our patients return time after time for their aesthetic treatments.

Sure Aesthetics has built up a reputation for offering great treatments, customer care and a high level of knowledge which clients love...

*"I'm so glad I found Sarah! I've wanted to have laser hair removal for a long time, and after my initial consultation and patch test with Sarah I was really happy to discover this could be much more affordable than I imagined. Sarah made me feel at ease straight away and was very professional and thorough throughout. The flowing conversation meant I didn't even notice I was being 'lasered', and the results are fantastic. Thank you!"*
